USER ROLES

- Individual users will be set up in PNM with appropriate user role.
- Using the same user role naming convention as currently used in MITS for hospitals however permissions are different.
- An individual can only be assigned **ONE** user role per provider.
- An individual can be assigned a user role for multiple providers and that role can be a different role for each provider.

USER ROLES

- Provider and Provider Agent User Roles
 - Provider Administrator – this is the individual that has the authority in the PNM to assign Provider Agent roles. This individual does have permission to upload cost report and required documents.

USER ROLES

- Provider and Provider Agent User Roles
 - FQHC Cost Report Upload – the individual that is assigned this user role has the permissions to upload the cost report and required documents for submission.

USER ROLES

- Provider and Provider Agent User Roles
 - View FQHC Cost Report - the individual that is assigned this user role does not have the permissions to upload the cost report and required documents. They only have permissions to download files.

USER ROLES

- Provider and Provider Agent User Roles
 - RHC Cost Report Upload – the individual that is assigned this user role has the permissions to upload the cost report and required documents for cost report submission.

USER ROLES

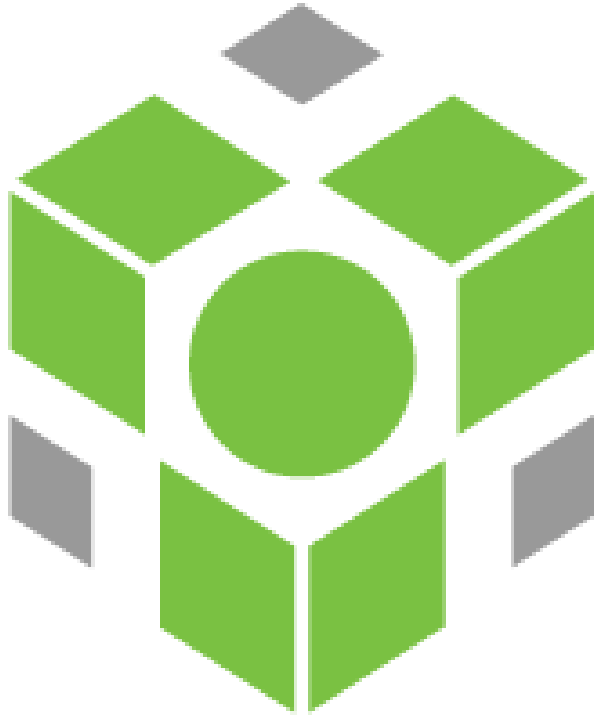

- Provider and Provider Agent User Roles
 - View RHC Cost Report - the individual that is assigned this user role does not have the permissions to upload the cost report and required documents. They only have permissions to download files.
