Introduction

This user guide provides the steps and functions of entering a new provider application to enroll in the Ohio Department of Medicaid (ODM) program. An NPI number is required to complete an enrollment. Once submitted, your application will be processed by the Medicaid Enrollment team and then sent to Credentialing, if Credentialing is required for your Provider Type. When all the necessary steps are completed for Enrollment and Credentialing (if necessary), you will receive a 'Welcome Letter' notice and a Medicaid Identification Number will be assigned to the provider.

To obtain a status update on an application submitted and in process, please contact the ODM Integrated Help Desk at 1-800-686-1516.

This document also contains the steps required when the application is returned to provider for additional information. Additionally, the process for completing provider updates and a revalidation is included in this document.

The steps in this document are for Provider Type 84 – Community Mental Health and Provider Type 95 – OMHAS Certified/Licensed Treatment Program, which would have a specific Behavioral Health page appear on the enrollment application.

Provider Home Page

There are two provider roles in PNM:

- **Provider Administrator:** (Also known as CEO Certified for DODD) A role assigned to a user in PNM that allows that user to create new enrollment applications, update provider records, and complete revalidations among other tasks. The Administrator role will also be able to grant accesses/actions to other users in PNM, known as Agents.
 - There is one Administrator role per NPI/Medicaid ID. However, a single user with the Administrator role can administer to multiple providers (NPIs/Medicaid IDs).
- **Provider Agent:** (Also known as Secondary User for DODD) A role assigned to a user in PNM that allows that user to complete specific actions such as updating a provider record, revalidation, claims submission, prior authorization, the viewing of reports, etc. These actions are assigned to each Agent by the Administrator for the Medicaid ID.

A user must select a role the first time they log into PNM.
