Introduction

This user manual provides the steps and functions for submitting and searching for institutional claims in the Provider Network Management (PNM) system. This document focuses on the submission of fee-for-service institutional claims.

Providers that can enter institutional claims include Hospitals, Nursing Facilities (NF), Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-IID) and Psychiatric Residential Treatment Facilities (PRTF).

Submission of managed care claims will still be submitted through the managed care portals.

The information contained in this document does not apply to MyCare Ohio.

For a Provider Agent user to submit claims, the role/action “*Claim Submission*” must be assigned to the Agent by the Provider Administrator for the Medicaid ID under which the claims are submitted.

For a Provider Agent user to search for claims, the role/action “*Claim Search*” must be assigned to the Agent by the Provider Administrator for the Medicaid ID under which the claims were submitted.

Decimals are not allowed on claim submissions. Be sure when entering codes (ex. diagnosis codes) that they are entered without decimals.

Provider Home Page

There are two provider roles in PNM:

- **Provider Administrator:** (Also known as CEO Certified for DODD) A role assigned to a user in PNM that allows that user to create new enrollment applications, update provider records, and complete revalidations among other tasks. The Administrator role will also be able to grant accesses/actions to other users in PNM, known as Agents.
 - There is one Administrator role per NPI/Medicaid ID. However, a single user with the Administrator role can administer to multiple providers (NPIs/Medicaid IDs).
- **Provider Agent:** (Also known as Secondary User for DODD) A role assigned to a user in PNM that allows that user to complete specific actions such as updating a provider record, revalidation, claims submission, prior authorization, the viewing of reports, etc. These actions are assigned to each Agent by the Administrator for the Medicaid ID.

A user must select a role the first time they log into PNM.

At the top right, a red circle with the number '5' highlights the claim status 'PAID' and other details: ICN 2022355061650, Paid Amount \$83.35, and Adjudication Date 12/21/2022. Below this, the 'Claim Type' is set to 'Institutional'. The form includes fields for 'Destination Payer Name' (Ohio Department of Medic), 'Destination Payer ID' (MMISODJFS - Ohio Depa), and 'Destination Payer Responsibility Sequence' (Primary). A red asterisk indicates required fields. The 'RECIPIENT INFORMATION' section shows the Medicaid Billing Number (910002227951), Date of Birth, Gender (Male), Patient Control Number (SWCLWZXDA), and address details. The 'SERVICE INFORMATION' section includes Special Program Code, Patient Amount Paid (0.00), Date Of Service, Release of Information (Yes), and Place of Service (11). At the bottom, a checkbox indicates 'This is a predetermination claim'. A red circle with the number '6' highlights the action buttons: 'Copy', 'Adjust', 'Void', and 'Cancel'.

The action buttons available at the bottom of the screen for a claim in DENIED status are different than the action buttons available for a claim in PAID status.

- **Resubmit:** Available for claims in DENIED status and lets provider fix the data, resubmit the claim again, and create a NEW DAY claim with a new ICN for further claim processing.

Note: Only claims in a DENY/DENIED status can be RESUBMITTED. During a claims SEARCH, the user is expected to select the latest iteration of the claim for resubmittal. If an earlier version of the claim is selected for correction and resubmitted, then it will be denied with the appropriate edit.
