

Quick Reference Guide: Application/Update/Revalidation Statuses

Steps: *Each time a new enrollment application, an update to an existing Medicaid record, or a Revalidation is submitted for review, statuses display on provider PNM pages to inform on the progress of the submission.*

There are two places to locate statuses in PNM.

There is a column on the provider homepage/dashboard displaying a status as it relates to an application, update, or revalidation submission for review.

Review the information contained on the column pertaining to the Provider/Medicaid ID that you are seeking a status update for. A list of statuses and their descriptions is available on [Page 3](#) of this document.

An "N" displayed under 'Workflow Complete' indicates that the application, update, or revalidation is still being reviewed or processed and the workflow has not been completed. This would also prevent any updates from being made to the Medicaid record, until the workflow is complete.

To obtain a status update for an application, please reach out to the Ohio Department of Medicaid at 1-800-686-1516 (Option 2 followed by Option 2).
